

## BUILDING THE FUTURE OF INCLUSION

### Support the Center on Disability and Inclusion Space Upgrade

The Dream Big Campaign isn't a ceiling—it's a foundation. Beyond the \$5 million for programs, services, and scholarships already raised, we're seeking an additional \$1.5 million to transform the Center on Disability and Inclusion into a state-of-the-art hub where innovation, research, and student success converge.

This renovation will create spaces that embody our mission: true inclusion, limitless possibility, and collaborative excellence.

## Your gift will help create these essential spaces:

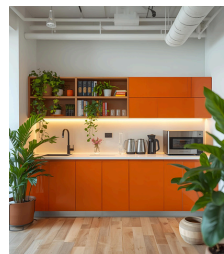

### InclusiveU Student Services Wing

The heart of student support, this dedicated wing will serve as a central hub where InclusiveU students connect with academic resources, advisors, and mentors who champion their success. This space ensures every student has access to the guidance they need to thrive at Syracuse University and beyond.

### InclusiveU Commonsplace

More than a lounge—this is where relationships are built. Students, mentors, and staff will gather to connect, recharge, and collaborate in a welcoming environment. With an adjacent kitchen and lockers for commuter students, this space will become the vibrant center of the InclusiveU community, fostering the belonging that transforms college experiences.

### Career Services & Transition Center

By bringing together InclusiveU employment resources with CDI's transition support teams, we're creating seamless pathways from classroom to career. This integrated center will provide comprehensive employment preparation programming, alumni resources, and social and community supports to strengthen the tools for students to confidently launch into life after college.

### Technical Assistance and Outreach Wing

CDI's influence extends far beyond Syracuse. This wing will house the Mid-State Family and Community Engagement (FACE) Center and the Inclusive Higher Education Technical Assistance Center (IHETAC) of New York teams who support college programs, students, families, and educational organizations across New York State and the nation. Their work builds capacity, shares best practices, and multiplies our impact exponentially.

### Research & Innovation Wing

Breakthrough research requires collaboration. This centralized wing will unite affiliated faculty and graduate students, fostering the continuous communication and innovation that advances disability-related research. From inclusive education models to public policy development, this space will generate the knowledge that transforms lives.

## CDI Collaboration Space

A large, flexible classroom space designed for possibility. Whether hosting seminars, workshops, or community gatherings, this adaptable environment will bring people together.

# Every Space. Every Student. Every Possibility.

These renovations will create an environment that is collaborative, accessible, and welcoming to all—because the physical spaces we inhabit shape the dreams we pursue.

## Your support of the CDI renovation is an investment in:

- Students who will discover their potential
- Researchers who will advance the field
- Faculty who will shape the next generation of inclusive educators
- Staff who will increase collaboration and communication
- Communities that will become more inclusive

*Photographs represent proposed spaces and are not actual.*

## Join us in building a space worthy of the life-changing work happening within it.

For more information about naming opportunities and ways to support the CDI renovation, please contact **Torin Washington, Assistant Dean of Advancement** at [tjwashin@syr.edu](mailto:tjwashin@syr.edu).
